PENELITIAN KUALITATIF

Pertemuan 3 : Desain Penelitian Kualitatif

Kembali lagi
bersama saya,
Anggi.

A photograph of two young women in conversation. The woman on the left has dark hair and glasses, wearing a brown shirt over a white t-shirt. The woman on the right has long dreadlocks and is wearing a white hoodie. A large blue circle is superimposed over the center of the image, containing the text "Let's Start!".

Let's Start !

**Sebelum kita mulai, masih ingat apa
yang kita bahas di 2 pertemuan
sebelumnya?**

Ingat, yang lalu jangan
dilupakan...
#kalau mantan silahkan

Flashback

“

- Definisi penelitian kualitatif
- Filosofi yang melatarbelakangi penelitian kualitatif

”

Planning and Designing Qualitative Research

The Resulting Proposal is somewhat Tentative. Your plans will probably change as your fieldwork progresses and the opportunity of the field emerges (Glesne & Peshkin, 1992, p. 14).

Constituted by men,
social and cultural phenomena

Quantitative Designs and Uses

- *A RESEARCH PROJECT IS AN EFFORT TO REMEDY THE IGNORANCE THAT EXISTS ABOUT SOMETHING.*
- *SO, YOUR ATTENTION TO THIS MIGHT BE SYSTEMATIZED INTO SEVERAL EXPLANATION*

Quantitative Designs and Uses

ABOUT:

- *RESEARCH TOPICS*
- *PROBLEM STATEMENT*
- *REVIEW OF THE LITERATURE*
- *USE OF THEORY*
- *SITE SELECTION*
- *STUDY PARTICIPANTS*
- *TIME FRAME*
- *PILOT STUDY*
- *GAINING ACCESS*
- *RESEARCHER ROLES*

Karakteristik Penelitian Kualitatif :

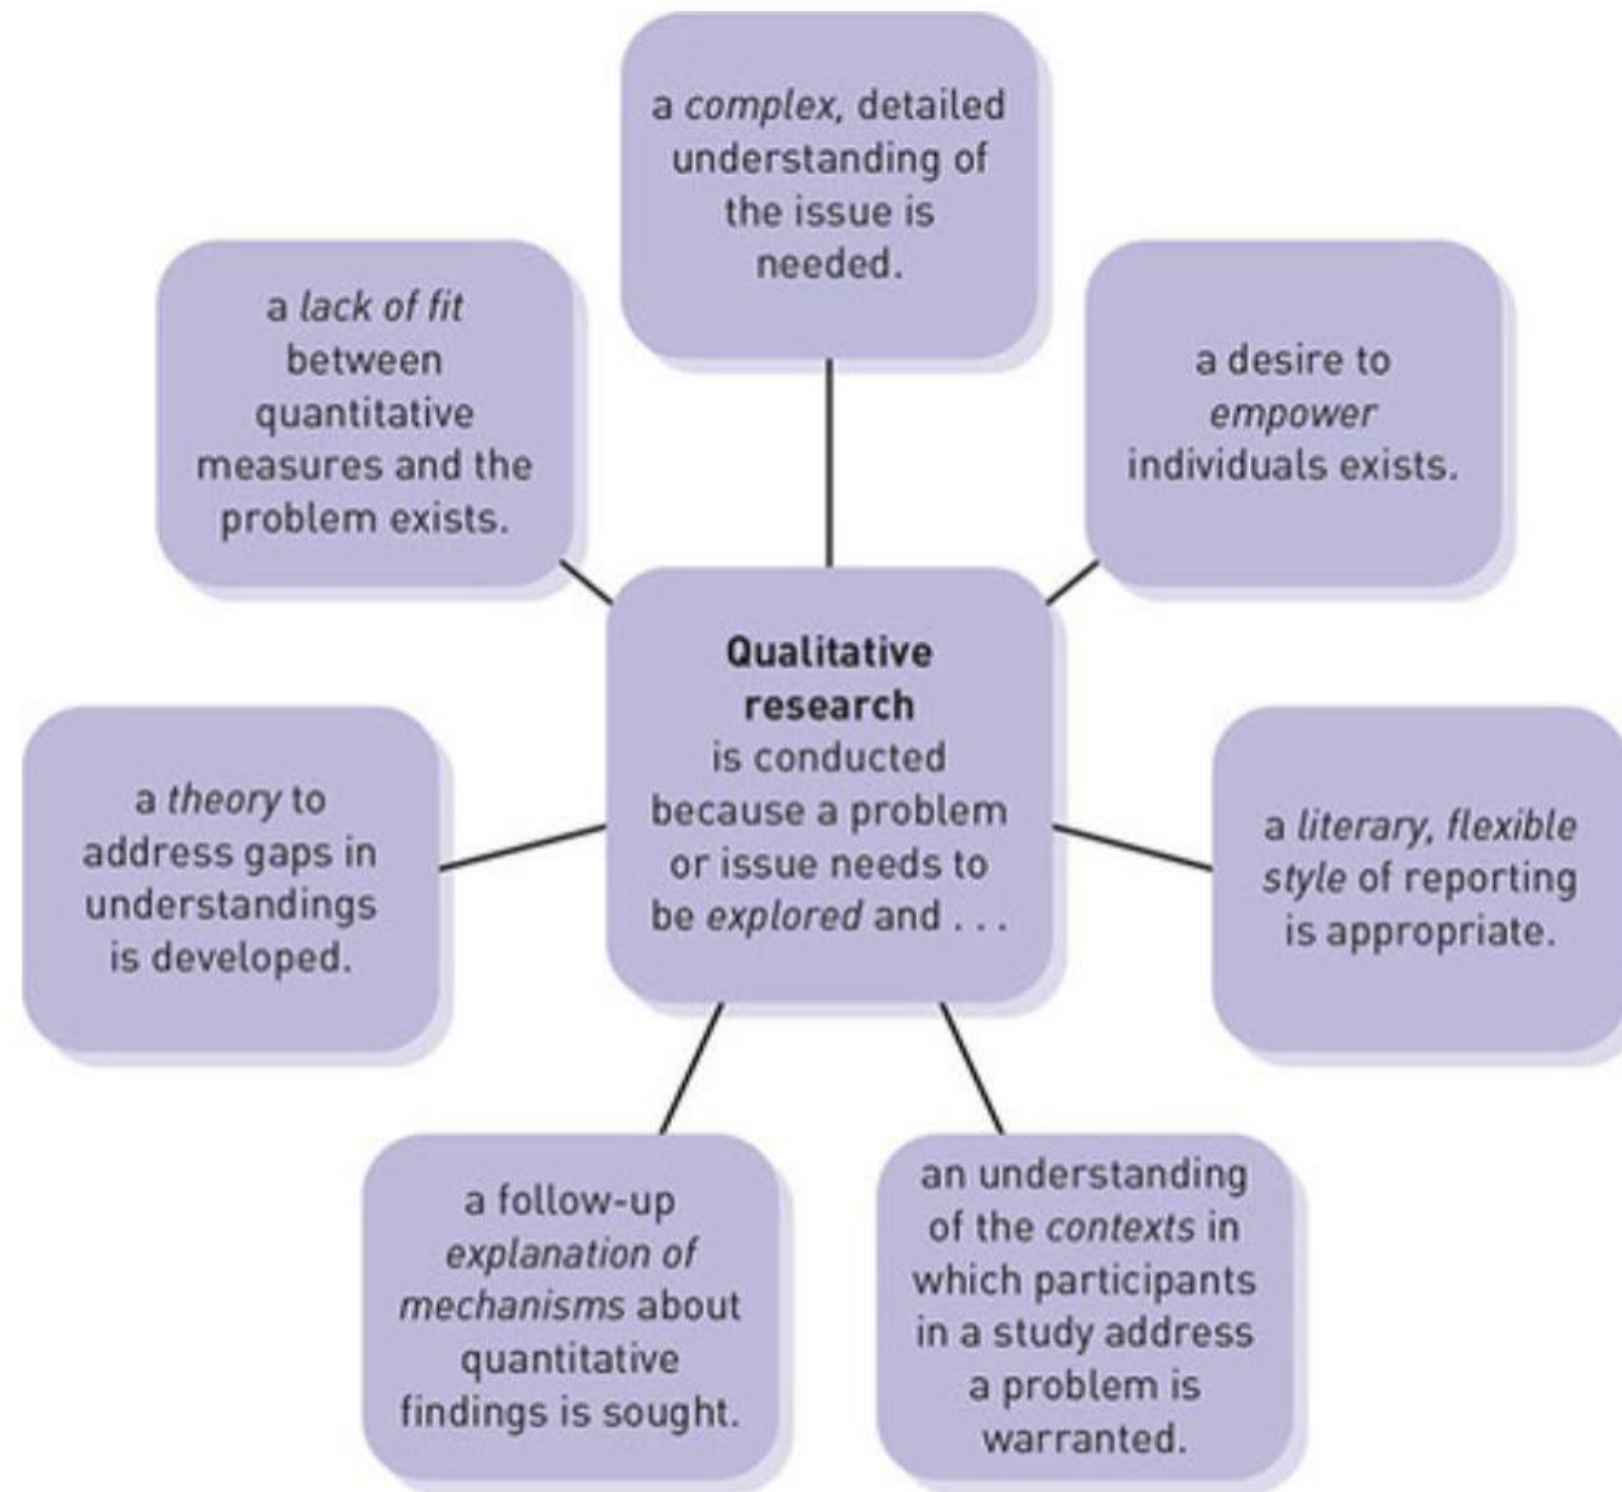

- *Natural setting*
- *Researcher as key instrument*
- *Multiple methods*
- *Complex reasoning through inductive and deductive logic*
- *Participants' multiple perspectives and meanings*
- *Context-dependent*
- *Emergent design*
- *Reflexivity*
- *Holistic account*

Kapan Sebaiknya Kita Menggunakan Desain Penelitian Kualitatif?

Cresswell, 2018 :

What a Qualitative Study Requires From Us?

- *Commit to extensive time in the field*
- *Engage in the complex, time-consuming process of data analysis*
- *Write lengthy and descriptive passages*
- *Embrace dynamic and emergent procedures*
- *Attend to anticipated and developing ethical issues*

The Process of Designing a Qualitative Study

- *Preliminary considerations*
- *Phases of Qualitative Research*
- *Elements in All Phases of the Research*

Theory

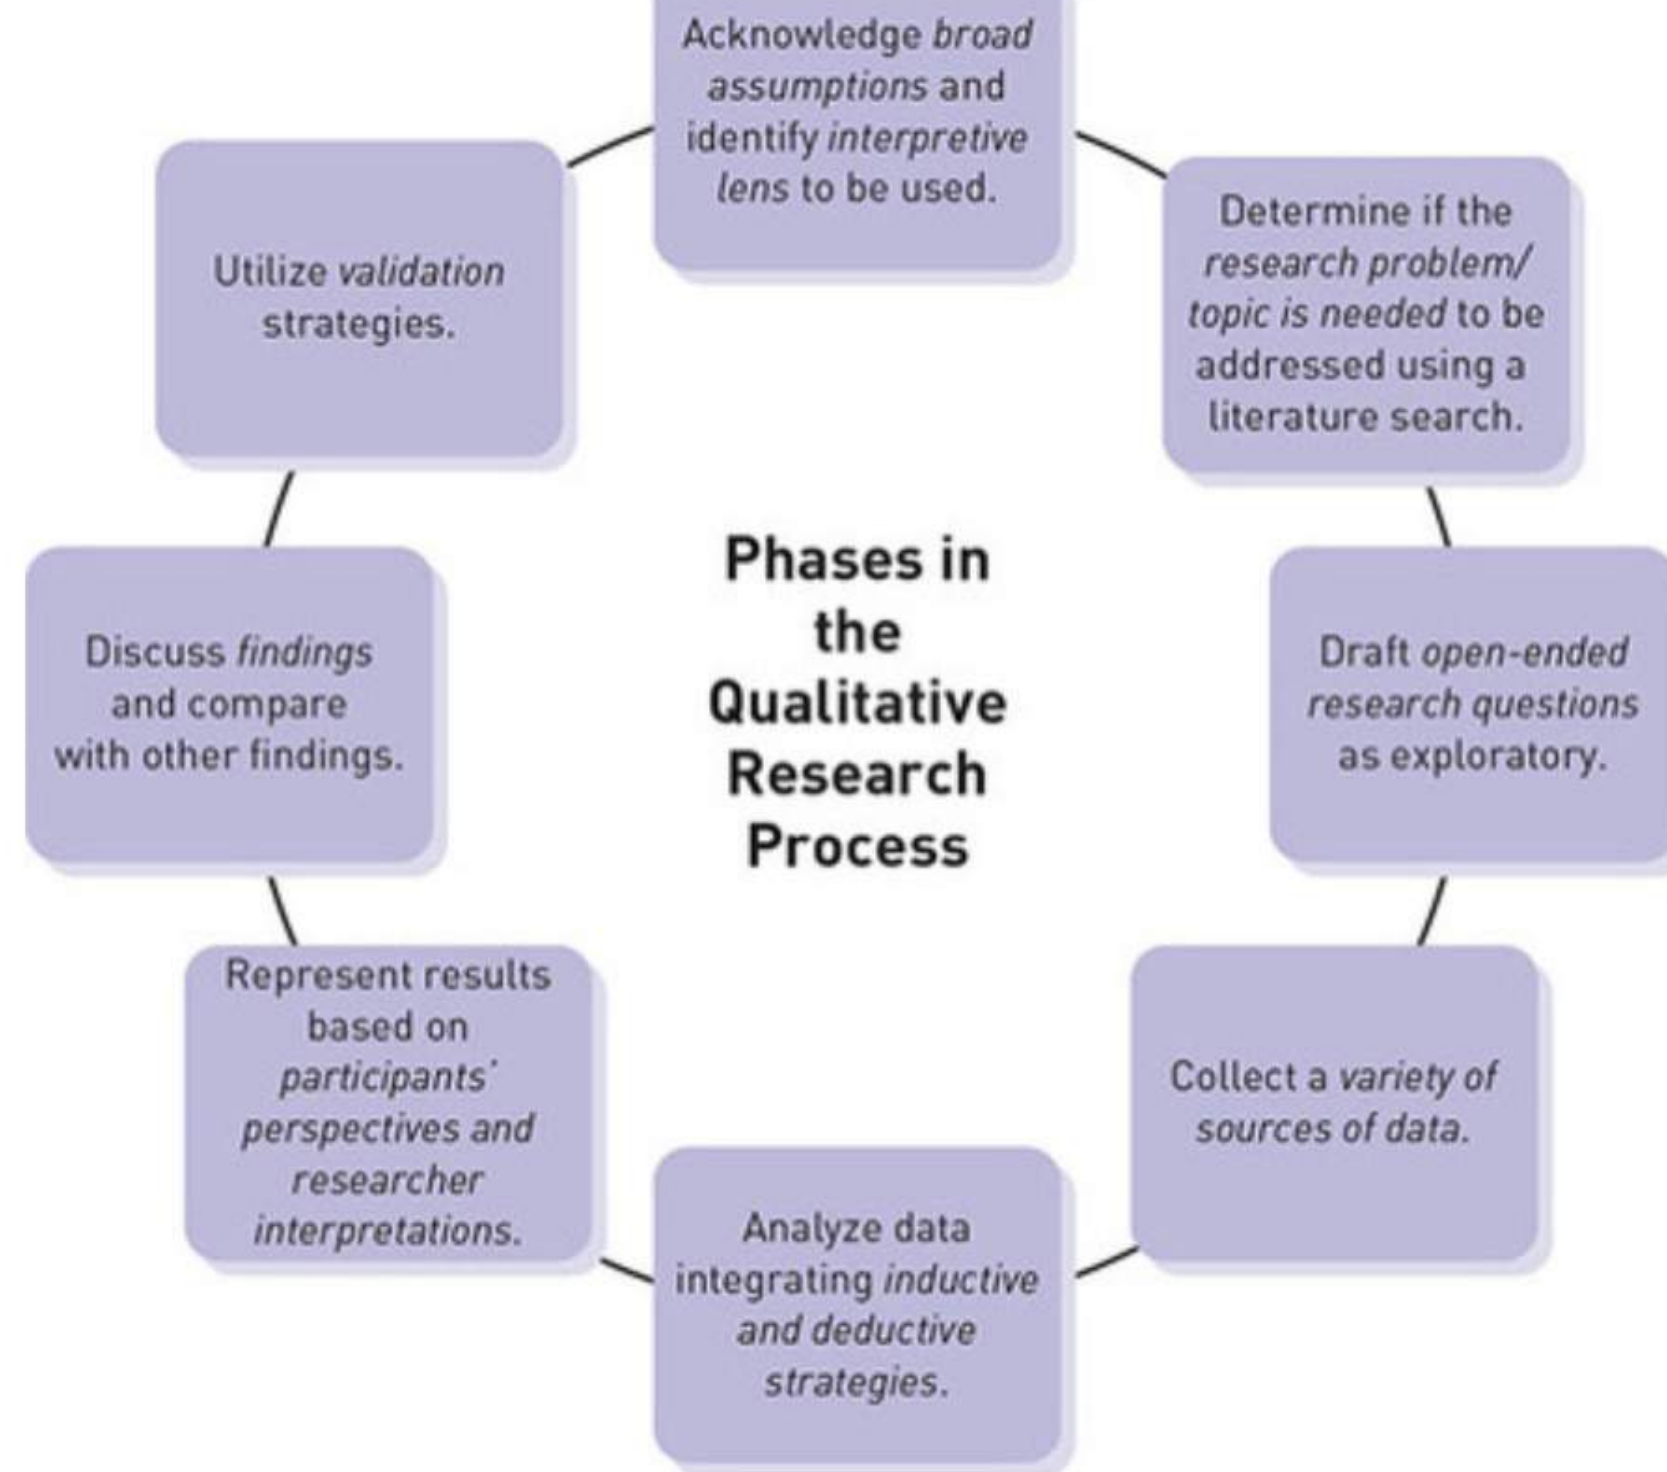

Preliminary Considerations

- *Methodological congruence*
- *The purposes, questions, and methods of research are all interconnected and interrelated so that the study appears as a cohesive whole rather than as fragmented, isolated parts*

Theory

Phases in the Research Process

Elements in All Phases of the Research

- Narrative
- Ethical considerations

Theory

Ethics in Qualitative Research

- involving our roles as insiders/outsideers to the participants
- assess issues that we may be fearful of disclosing; establish supportive
- respectful relationships without stereotyping and using labels
- acknowledge whose voices will be represented in our final study
- reflecting on who we are and the people we study
- sensitive to vulnerable populations
- imbalanced power relations
- placing participants at risk

Theory

Design Structure

- Study a unique sample
- Assume an unconventional perspective
- Observe an uncommon field site
- Collect atypical forms of data
- Present findings in an unusual way
- Focus on a timely topic

Theory

Struktur penulisan laporan

- Introduce the problem to be studied
- Describe the procedures guiding the study :
“philosophical assumptions or worldview, qualitative research approach used, role of the researcher, data collection procedures, data analysis procedures, strategies for validating findings, proposed narrative structure of the study, and anticipated ethical issues”
- Report the preliminary study findings (if available)
- Outline the anticipated study implications
- List the references cited in the study
- Include essential documents as appendices
